

Legacy Paver Donor Recognition Campaign 2021

“We make a living by what we get, but we change a life by what we give.” ~ Winston Churchill

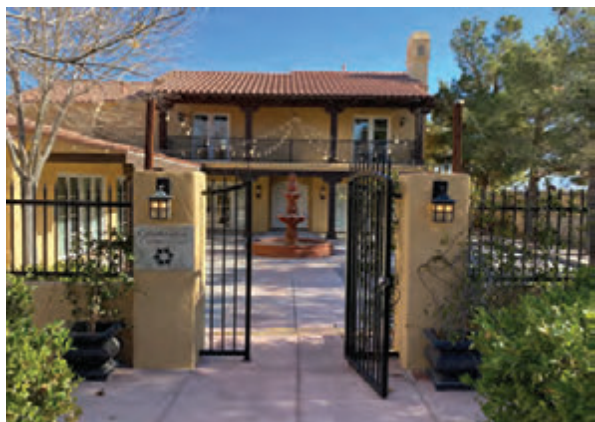

Introduction to Collaboration Center Foundation

The Collaboration Center Foundation (CCF) is committed to enhancing the lives of families and individuals living with Intellectual, Developmental, and Physical Disabilities. Established in February 2019, CCF's main purpose is to serve and support the lives of those who have special needs by providing a comprehensive campus where they can find the help necessary, all in one place. We listened to the despair of parents with special needs children in our community and heard their pain, frustration, and hopelessness. Common issues such as the need for parental support systems, frustration of diagnostic waitlists and access to medical professionals, lack of social opportunities, and fear about the future were expressed repeatedly.

In Southern Nevada alone, there are over 37,000 documented special education students (ages 3-21) living with intellectual and developmental disabilities. The list of needs each of these children desperately require are as varied and different as the children themselves. While each disorder has books, websites, and local and national organizations devoted to them, parents become overwhelmed with the daunting tasks of navigating the sea of information and finding funding and services to help the entire family. This leaves families exhausted, frustrated, hopeless, and emotionally and financially devastated.

How you can leave a Legacy!

Today you can join us in changing the lives of individuals and families living with disabilities for generations in Nevada by sponsoring one or more pavers engraved with your name, business, family name or another category meaningful to you.

Each brick will be located in our Las Vegas Ranch Collaboration Courtyard. The Collaboration Courtyard is at the heart of the property, leading directly to the main entrance of our campus and nestled between the Jack Sholeff Memorial Clinic, NEAT Academic Services, Community Meeting Room and Family/Caregiver Support Room. The key feature of this impressive open-air space is the 10-foot-tall wishing well fountain. Thousands of guests, clients, and supporters will walk through and/or celebrate in this charming main

corridor at LV Ranch during Collaboration Center fundraisers and other community events.

With generous donation of \$500, \$1,000 or \$1,500 per brick, you will be supporting Collaboration Center Campus at LV Ranch and the Pathways program. This Community Referral and Case Management program offers coordinated care to individuals and families living with disabilities. Pathways services provides the education and support necessary to enhance quality of life and promote maximum independence for every family we serve.

Contact Lynda Tache for more information at Ltache@Collablv.org or 702-217-4194.
